Executive Summary

91.220(b)

The action plan must include the following: . . . A concise executive summary that includes the objectives and outcomes identified in the plan as well as an evaluation of past performance, a summary of the citizen participation and consultation process (including efforts to broaden public participation), a summary of comments or views, and a summary of comments or views not accepted and the reasons therefore.

This document explains how the city plans to spend the Community Development Block Grant (CDBG) and HOME Investment Partnership Act (HOME) funds that the city receives from the U.S. Department of Housing & Urban Development (HUD), together with other leveraged resources, during the upcoming program year beginning on July 1, 2009. The national CDBG program is a principal revenue source for local communities to address the roots and consequences of poverty. The HOME program is designed to create affordable housing for low-income households through building, buying, and/or rehabilitating housing for rent or homeownership. HUD administers these programs on a national basis and awards grants to entitlement communities and participating jurisdictions – including the City of Burlington – each year on a formula basis. The city in turn awards grants and loans to local nonprofits as well as providing direct services to residents and businesses through several CDBG-funded programs. The overall goal of these community planning and development programs is to develop viable communities by providing decent housing, expanded economic opportunities and a suitable living environment, principally for low- and moderate-income persons.

With this year's CDBG and HOME funding – together with leveraged resources – the city and its subgrantees plan to:

- Work on predevelopment at the Browns Court and Thayer School (DMV) sites, anticipated to produce 130 new mixed-income rental units, 1,040 construction jobs and \$130,000 in increased annual property tax collections.
- Complete the refinancing and/or renovation of 108 senior housing units at 3 Cathedral Square, 80 rental units at Salmon Run and 71 other housing units in the city (principally in the Old North End), with an estimated 292 associated construction jobs.
- Reduce lead hazards in 70 housing units, estimated to produce 80 construction jobs.
- Help 3,536 residents to remain housed and living independently through utility assistance, homesharing, home-based and center-based services for seniors, access modifications and other housing retention services.
- Provide 1,114 homeless residents with emergency shelter, case management and housing placement services.
- Support the creation of 14 new businesses and 41 new jobs and the retention / expansion of 12 businesses and 36 jobs through technical assistance and entrepreneurial training.

- Support the development of 10,000 sq. ft. of new commercial space and the renovation of 15,000 sq. ft. of commercial space (with an associated annual increase of \$60,000 in new nonresidential property taxes) through grants, technical and permitting assistance.
- Provide families with high-quality, affordable childcare and early education for 114 children.
- Provide computer training, financial education, interpretation and community integration services to help 704 residents with limited English proficiency or fixed incomes increase their self-sufficiency.
- Provide food to 5,997 residents, summer and after school programming to 620 youth, prescription assistance to 40 people, and crisis and support services to 300 victims of crime.
- Support the renovation of the Heineberg Senior Center, three community gardens, and the Northgate playground.
- Begin construction on College Street Access and Downtown street improvements, with an estimated 100 associated construction jobs.
- Support the assessment, remediation and redevelopment of 8 brownfields sites, including the Moran Plant.

These activities are intended to further the city's five-year goals, strategies, objectives and outcomes¹, which – as identified in its 2008 Consolidated Plan for Housing & Community Development – are as follows:

DECENT HOUSING

GOAL: All Burlington residents have a range of housing options that offer them safe, decent, appropriate, secure and affordable housing

STRATEGY: Produce new affordable rental housing

- Objective DH-2.1: Develop 128 new units of affordable rental housing over the next five years

STRATEGY: Promote homeownership

- Objective DH-2.2: Develop 41 new units of affordable owner housing over the next five years
- Objective DH-2.3: Help 120 low- and moderate-income residents purchase a home over the next five years

¹ Outcome measures are prescribed by the U.S. Department of Housing & Urban Development (HUD), and are abbreviated above according to the following:

	Availability / Accessibility	Affordability	Sustainability
Decent Housing	DH-1	DH-2	DH-3
Suitable Living Environment	SL-1	SL-2	SL-3
Economic Opportunity	EO-1	EO-2	EO-3

DECENT HOUSING, CONTINUED

STRATEGY: Preserve and upgrade existing housing

- Objective DH-3.1: Preserve 427 units of affordable housing over the next five years
- Objective DH-3.2: Rehab 74 units of rental housing over the next five years
- Objective DH-3.3: Rehab 33 units of owner housing over the next five years

STRATEGY: Protect the vulnerable

- Objective DH-3.4: Help 3,585 residents each year over the next five years to remain housed and living independently
- Objective SL-1.1: Provide 880 homeless residents with shelter and services each year over the next five years
- Objective DH-1.1: Develop 36 new units of transitional housing over the next five years to help homeless residents move towards permanent housing
- Objective DH-1.2: Develop 88 new units of permanent supportive / special needs housing over the next five years
- Objective DH-3.5: Reduce lead hazards in 180 housing units over the next three years

ECONOMIC OPPORTUNITY

GOAL: A prosperous Burlington economy provides all Burlington residents with access to livable wage jobs, to the education and training that qualify them for those jobs, to business ownership opportunities, and to the supports necessary to access those opportunities.

STRATEGY: Retain and increase the number of businesses and jobs in Burlington by providing technical assistance, information, entrepreneurial training and business loans

- Objective EO-1.1: Support the start-up of 60 new businesses, the retention/expansion of 60 businesses, the creation of 190 new jobs and the retention of 75 jobs over the next five years by providing technical and financial assistance, information and training to 166 customers each year

STRATEGY: Enhance commercial infrastructure to increase business opportunities and the city's tax base

- Objective EO-1.2: Support the development of 50,000 new sq. ft. and the retention/renovation of 150,000 sq. ft. of commercial space, the improvement of public infrastructure facilitating business development, and the collection of \$500,000 additional nonresidential property tax dollars over the next five years, with 1,750 associated construction jobs

STRATEGY: Reduce barriers to economic opportunity

- Objective EO-3.1: Help families access quality childcare/early education for 75 children each year over the next five years
- Objective EO-1.3: Help 50 residents with improved access to economic opportunity each year over the next five years

SUITABLE LIVING ENVIRONMENT

GOAL: All Burlington residents enjoy livable, attractive neighborhoods, are assured of safety and quality of life in their neighborhoods and in their homes, and have the necessary community supports to thrive.

STRATEGY: Provide access to services to stabilize living situations; enhance health, safety and quality of life; and improve youth development

- Objective SL-1.2: Help 2,000 residents access nutritious food each year over the next five years
- Objective SL-1.3: Help 400 youth access after school and summer recreational and educational opportunities each year over the next five years
- Objective SL-1.4: Help 400 residents access health and public safety services each year over the next five years

STRATEGY: Improve public facilities and public infrastructure to foster livable neighborhoods and access to public amenities

- Objective SL-3.1: Improve 10 public facilities over the next five years
- Objective SL-3.2: Improve the public infrastructure serving 39,815 residents over the next five years

STRATEGY: Redevelop brownfields into productive use

- Objective SL-3.3: Redevelop 61.2 acres of contaminated sites into 4 new/renovated public facilities, 61 new units of affordable housing and 8 new/renovated commercial spaces over the next five years

Evaluation of Past Performance

The first program year under the current Consolidated Plan is not yet complete. Progress will be reported in September 2009, in the 2008 Consolidated Annual Evaluation and Performance Report (CAPER). An evaluation of performance under the prior Consolidated Plan is available in the 2007 CAPER.

Citizen Participation

The citizen participation and consultation process for this Action Plan included:

- Notice about the availability of funds published online and in the Vermont Times;
- Direct mailing to over one hundred nonprofits, city departments and residents about the availability of funds;
- Outreach to the Neighborhood Planning Assemblies and in low-income neighborhoods about the opportunity to submit resident-generated neighborhood improvement applications for funding;

- Two workshops for applicants;
- Seats at the CDBG Advisory Board for representatives from each of the city's seven wards, a resident living in assisted housing and a resident participating in the Single Parent Program;
- Six public meetings of the CDBG Advisory Board, which develops the funding recommendations for the Action Plan;
- Publication of the Advisory Board recommendations and the draft Action Plan online; and
- A Public Hearing before City Council on housing and community development needs in the city, the Advisory Board recommendations and the draft Action Plan.

Public Comment

The public comments received by the city are summarized below:

- Several residents commented that CDBG funding is needed for more than just bricks and mortar, it's also needed to support staffing for project development and for citizen participation and public involvement in that process.
- A number of small business owners commented on the value that they had derived from accessing CDBG-funded economic development services in starting or expanding their businesses and expressed concern over proposed cuts to funding for economic development programs.
- One comment expressed concern over the proposed funding cut to the Women's Rape Crisis Center.
- Representatives from the Heineberg Senior Center, the Women's Rape Crisis Center and Women Helping Battered Women expressed thanks for CDBG support for their agencies.

The city appreciates the comments received and the concerns expressed, while acknowledging that the amount of available funding forces hard choices among competing needs.

Available Resources

91.220(c)(1) The . . . plan must provide a concise summary of the federal resources (including grant funds and program income) expected to be made available. Federal resources should include Section 8 funds made available to jurisdictions, Low-Income Housing Tax Credits, and competitive McKinney-Vento Homeless Assistance Act funds, expected to be available to address priority needs and specific objectives identified in the strategic plan.

The city expects that the following federal resources will be available to the city this year:

Community Development Block Grant	
Entitlement Allocation	\$893,207
Program Income	50,000
Prior Year Funds	283,000
Section 108	1,027,000
HOME Investment Partnership Act	
Entitlement Allocation	\$547,141
Program Income	7,000
Lead-Based Paint Hazard Reduction	955,000
Total Funds for Housing and Community Development	\$3,762,168

The city also anticipates that approximately \$6.6 million in Low Income Housing Tax Credits, \$8 to \$9 million in Section 8 resources, and \$787,264 in McKinney-Vento Homeless Assistance Act funds will be available to address needs and objectives identified in the Action Plan. (These are not resources that the city receives or controls.)

91.220(c)(2) Other resources. The . . . plan must indicate resources from private and state and local sources that are reasonably expected to be made available to address the needs identified in the plan. The plan must explain how federal funds will leverage those additional resources, including a description of how matching requirements of the HUD programs will be satisfied. Where the jurisdiction deems it appropriate, the jurisdiction may indicate publicly owned land or property located within the jurisdiction that may be used to address the needs identified in the plan . . .

Overall, the city expects to leverage \$72,324,140 in state, local, private and other federal resources for its CDBG- and HOME-funded activities. These are funds that the city and its subgrantees expect to raise for their budgeted activities as well as funds that the city expects outside entities to invest. Each funded activity identifies the budgeted amount of leveraged funding for that program or project in Table 3C on pages 18-56. In addition, the city-owned land at Browns Court will be made available for the anticipated development of 30 new rental housing units.

The city will meet or exceed the requirement that “contributions must total not less than 25% of funds drawn from the jurisdiction’s HOME Investment Trust Fund Treasury account in that fiscal year,” excluding funds drawn for administrative and planning costs pursuant to 24 CFR 92.207. Sources of matching funds include, but are not limited to, Vermont Housing and

Conservation Trust Fund, the Burlington Housing Trust Fund, waiver of impact fees, and private debt financing secured by property owners and nonprofit organizations.

BLANK PAGE

Summary of Annual Objectives and Annual Affordable Housing Objectives

91.220(c)(3) Annual objectives. The . . . plan must contain a summary of the annual objectives the jurisdiction expects to achieve during the forthcoming program year.

91.220(g) Affordable housing. The jurisdiction must specify one-year goals for the number of homeless, non-homeless, and special-needs households to be provided affordable housing using funds made available to the jurisdiction and one-year goals for the number of households to be provided affordable housing through activities that provide rental assistance, production of new units, rehabilitation of existing units, or acquisition of existing units using funds made available to the jurisdiction. The term affordable housing shall be as defined in 24 CFR 92.252 for rental housing and 24 CFR 92.254 for homeownership.

Annual objectives for Program Year 2009 funding are summarized below. Activities listed in this Table include those funded with CDBG and HOME dollars as well as those funded through other sources. Each CDBG-funded activity listed in the Summary of Annual Objectives is described in detail in Table 3C on pages 19-57. Housing which meets the affordable criteria is designated with an “*.”

Description of Activities

91.220(d) Activities to be undertaken. The action plan must provide a description of the activities the jurisdiction will undertake during the next year to address priority needs and objectives. This description of activities shall estimate the number and type of families that will benefit from the proposed activities, the specific local objectives and priority needs (identified in accordance with Sec. 91.215) that will be addressed by the activities using formula grant funds and program income the jurisdiction expects to receive during the program year, proposed accomplishments, and a target date for completion of the activity. This information is to be presented in the form of a table prescribed by HUD. The plan must also describe the reasons for the allocation priorities and identify any obstacles to addressing underserved needs.

91.220(e) Outcome measures. Each jurisdiction must provide outcome measures for activities included in its action plan in accordance with guidance to be issued by HUD.

91.220(l)(1) (i) A jurisdiction must describe activities planned with respect to all CDBG funds expected to be available during the program year (including program income that will have been received before the start of the next program year), except that an amount generally not to exceed ten percent of such total available CDBG funds may be excluded from the funds for which eligible activities are described if it has been identified for the contingency of cost overruns. (iv) . . . The information about activities shall be in sufficient detail, including location, to allow citizens to determine the degree to which they are affected.

The activities that the city and its subgrantees will undertake during Program Year 2008 are described in the HUD-prescribed Table 3C on pages 19 - 57. Table 3C includes the city's CDBG and HOME resources as well as other resources budgeted for these activities. It also includes the HUD-prescribed outcome measures.

The priorities for allocation and the obstacles to addressing underserved needs were identified in the Consolidated Plan and have not changed, except that the declining economy presents additional obstacles in the form of decreasing revenues, jobs and services.

The location of each activity is identified in Table 3C, to the extent it is known at this point. There are some programs that are specifically designed to respond to requests for assistance as they arise throughout the year, and whose location is therefore not known in advance. Those programs are described below.

Burlington Housing Initiatives Program (funded with CDBG)

Emergency Loan Program: Sliding scale loans (50% amortizing, 50% deferred payment) to low- and very-low income homeowners in the Renewal Community and other CDBG-eligible neighborhoods. Loans are typically \$5,000 or less.

Accessibility Program: Grants are available to low-income elderly or disabled Burlington residents. Grants are typically \$5,000 or less.

Paint Grants: Free paint for low-income households in the Renewal Community and other CDBG-eligible neighborhoods. Grants are generally limited to covering the cost of paint.

Special Projects: Funds are available for special projects to homeless shelters, and seed grants for high impact projects such as permanent housing for homeless and disabled in Burlington. Maximum grant amount is \$10,000.

RePAIR (Rehabilitation Program Assisting Investment Rentals): Loans are available to finance necessary repairs to multifamily rental properties in Burlington, with priority to Renewal Community neighborhoods. All rents charged after the rehabilitation must be affordable to lower income families for one year, and at least 51% of the occupants must have incomes less than 80% of the county median during that period. RePAIR will assist with the financing of rehabilitation and will also refinance existing debt. Applications are reviewed for credit worthiness, ratio of income to expenses, loan to value and other typical underwriting standards.

Duplex Program: CEDO and the NeighborWorks Homeownership Center run by the Champlain Housing Trust operate a program to encourage owner-occupancy of 2-4 unit buildings in targeted neighborhoods. The renter-occupied unit in a building purchased through this program is subject to rent restrictions. Typical down payment and closing cost assistance is \$10,000 per building.

Burlington Housing Initiatives Program (funded with HOME)

Acquisition and Rehabilitation Program: Acquisition and rehabilitation of owner-occupied and rental properties to make them affordable to low-income households or to preserve them as affordable units, convert them to cooperative properties, or for the acquisition and improvement of mobile home parks.

New Construction Program: Production of owner-occupied dwellings, cooperative properties, conventional rental properties, single-room occupancy units, group homes or housing for households/individuals with documented special needs. Units created under this program must be affordable to low-income households.

Rehabilitation of Existing Owner-Occupied Manufactured Homes Program: Rehabilitation of existing manufactured housing stock is an eligible activity. Income-eligible owners of manufactured housing units qualify for HOME funds to pay for rehabilitation, including the creation or repair of a permanent foundation, rehabilitation of the unit, and relocation costs associated with moving a unit.

Refinancing Existing Debt: Multi-family projects developed by locally-based housing organizations that receive HOME funds for rehabilitation may utilize HOME funds to refinance existing debt if there is significant rehabilitation of the property proposed in addition to the refinancing.

Business Financing & Technical Assistance and Burlington Sustainable Economic Development Strategies Program

Burlington Revolving Loan Program: Gap financing is available to businesses that are located in Burlington, with particular attention to certain targeted commercial revitalization areas including the Renewal Community, the King Street neighborhood and the Pine Street Business District. Loan applicants must meet the size guidelines of the U.S. Small Business Administration. There is a formal application process. Applicants must submit a business plan and show they are investing their own time and money in the business. Loan applications are reviewed when they are complete, and questions raised by the loan committee are provided to applicants in writing for their response. Loans range from \$500 up, and the interest rate is 8%. Loans may be used to finance fixed assets or inventory, or for operating capital. Repayment schedules vary according to what's being financed, and loans are secured by all business and/or personal assets.

CEDO also administers other business loans and grants. Loans used to finance efficiency improvements and/or to reduce environmental waste are offered at 4%. Loans used to finance handicapped access construction will be offered at 0%. Occasionally, the city may also extend no-interest loans for up to five years to nonprofit organizations or government entities for projects that will create jobs. The city may also provide small grants as an incentive to repair and improve commercial facades where the improvement positively impacts the neighborhood and facilitates economic development. The city may offer grants for work force training for new employees and for job upgrading skills. Finally, the city may provide financial assistance in the form of a grant to refugee and immigrant entrepreneurs in order to provide needed training, marketing, and technical assistance.

NeighborWorks® Homeownership Center Services of the Champlain Housing Trust

NeighborWorks® HomeOwnership Center homebuyer education services are available to everyone. Certain income requirements and geographical restrictions apply to the financial assistance programs, rehab loans, Land Trust properties, and special lender programs offered through the Center. Land Trust homeownership is available to customers of the Center who have a stable source of income, good credit and reasonable debts, and who meet maximum income guidelines. Land Trust homebuyers may receive down payment assistance for qualified single family home purchases or may purchase an existing Land Trust home that is being resold.

Geographic Distribution of Resources

91.220(f) Geographic distribution. A description of the geographic areas of the jurisdiction (including areas of low-income and minority concentration) in which it will direct assistance during the ensuing program year, giving the rationale for the priorities for allocating investment geographically. When appropriate, jurisdictions should estimate the percentage of funds they plan to dedicate to target areas.

The rationale for allocating resources geographically was identified in the Consolidated Plan and has not changed. The specific location of each activity is identified in Table 3C, if it is known at this point. Around 75% percent of the city's CDBG and HOME resources are directed to activities that target the city's Neighborhood Revitalization Strategy Area, shown below.

Neighborhood Revitalization Strategy Area Activities

The implementation strategies for the Burlington Neighborhood Revitalization Strategy Area is outlined below, together with the actions that the city proposes to take in Program Year 2008 with its CDBG and HOME resources:

- A. Stimulate and support business growth/development on Riverside Ave., Smart Growth area, North Street area and downtown.

Funded Projects/Programs:

- Sustainable Economic Development Strategies
- Business Financing & Technical Assistance
- Intervale Center Farms Program
- Brownfields Program

Annual Benchmarks:

- 6 new business start-ups assisted in the Target Area
- 6 businesses retained/expanded in the Target Area
- 25 jobs created/retained in the Target Area
- 5,000 sq. ft. of new/renovated commercial/industrial space in the Target Area

B. Support workforce development and asset building opportunities for low and moderate-income residents.

Funded Projects/Programs:

- Sustainable Economic Development Strategies
- Women's Small Business Program
- Intervale Center Healthy Cities Program

Annual Benchmarks:

- 1 job training program serving Target Area residents
- 20 Target Area residents assisted through entrepreneurial training programs

C. Create and preserve decent, safe and affordable housing in the Target Area.

Funded Projects/Programs:

- Champlain Housing Trust
- Housing Initiatives Program
- Cathedral Square Corporation

Annual Benchmarks:

- 178 units of rehabbed housing in the Target Area
- Predevelopment underway on 30 new rental units in the Target Area

D. Enhance a suitable living environment in Target Area neighborhoods through infrastructure improvements and public safety and quality of life organizing efforts.

Funded Programs/Projects:

- Neighborhood Revitalization

Annual Benchmarks:

- Infrastructure construction underway

Income Targeting of Resources

91.220(l)(iv) The plan shall identify the estimated amount of CDBG funds that will be used for activities that benefit persons of low- and moderate-income.

The city anticipates that 100% of its CDBG resources this year will be spent to benefit low- and moderate-income residents, and that none of its CDBG resources will be spent on the alternative national objectives of preventing / eliminating slums or blight and addressing community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community for which other funding is not available.

Float-Funded Activities

91.220(l)(ii)(E) Income from float-funded activities. The full amount of income expected to be generated by a float-funded activity must be shown, whether or not some or all of the income is expected to be received in a future program year. To assure that citizens understand the risks inherent in undertaking float-funded activities, the recipient must specify the total amount of program income expected to be received and the month(s) and year(s) that it expects the float-funded activity to generate such program income.

The CDBG Float Loan Program will be established to provide short-term financial assistance for community development, housing development and economic development projects in Burlington. Funding for the program will come from allocations to other CDBG activities which are not anticipated to be expended during the term of the float loan. An absolute pre-condition for any float loan will be an unconditional, irrevocable Letter of Credit from a lending institution in order to assure the availability of funding. One specific project has been targeted for the Float Loan Program:

Burlington Revolving Loan Program

- Benefits businesses, city departments and private nonprofit organizations
- Short-term financing of business expansion; public infrastructure and facilities, including the Moran Plant; and housing and development projects in Burlington
- Projects must meet the underwriting criteria of the Burlington Revolving Loan Program

Float Loan Allocation:

- Not to exceed \$300,000
- Secured by an irrevocable Letter of Credit
- Repayments scheduled to ensure no delay of funding to other subrecipients

Program Compliance

Sec. 91.230 Monitoring. The plan must describe the standards and procedures that the jurisdiction will use to monitor activities carried out in furtherance of the plan and will use to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements.

The Community & Economic Development Office is responsible for program compliance. The city anticipates that \$188,605 of its CDBG expenditures and \$54,714 of its HOME expenditures this year will be spent on general administration and planning activities. In addition to financial management, grant administration, program reporting and environmental reviews, those activities include:

Monitoring

As part of its administration and planning activities, the city monitors the activities funded through its CDBG and HOME programs to ensure that they are in compliance with regulatory requirements, to discuss community needs and program challenges with subrecipients, to assess the effectiveness of funded activities, to monitor program and activity performance, and to ensure the timeliness of expenditures. The monitoring plans for these programs and the criteria for selecting subrecipients for onsite review are described in Chapter Three, Section VIII of the city's Consolidated Plan.

Disadvantaged Business Enterprise (DBE) Participation

The Community & Economic Development Office has developed a web-based registry of self-certified DBEs and does outreach to local businesses to make them aware that the registry can help them access contracting opportunities. This registry, together with the state's online DBE registry, is available to city departments and to subrecipients for their procurement processes.

Institutional Structure and Coordination

91.220(k) Actions it plans to take during the next year to . . . enhance coordination between public and private housing and social service agencies.

The city is committed to nurturing a strong nonprofit infrastructure. The Community & Economic Development Office actively supports the participation of community- and faith-based organizations in its CDBG program through annual requests for applications and through workshops to help organizations develop eligible and effective proposals. CEDO also distributes information on other grant opportunities; assists in grant application efforts; and assists in grant administration for community-based programs such as the Mental Health Court.

CEDO also runs an AmeriCorps*VISTA program (A*VISTA) which supports the local nonprofit infrastructure. A*VISTA members serve as “capacity builders” in nonprofit agencies and as grassroots organizers in the community.

CEDO hosts monthly meetings of the local nonprofit housing developers and actively participates in the monthly meetings of the Chittenden County Continuum of Care to address homelessness; the Partnership for Economic Well-being and the CASH (Creating Assets, Savings and Hope) Coalition; and the Refugee and Immigrant Service Providers Network.

Addressing Obstacles

91.220(k) Actions it plans to take during the next year to address obstacles to meeting underserved need, . . .

As identified in the Consolidated Plan, the principal obstacle to meeting underserved needs is insufficient resources. The city will continue to pursue additional federal, state and private resources, but does not expect to overcome the obstacle of shrinking public resources. The city will also continue to work with partners to examine obstacles such as benefits cliffs and to advocate for appropriate policy changes.

Reducing the Number of Poverty-Level Families Living in Burlington

91.220(k) Actions it plans to take during the next year to . . . reduce the number of poverty-level families . . .

All of the activities funded through the city’s CDBG and HOME programs are ultimately directed at reducing the number of people living in poverty in Burlington. In addition, the city will continue to enforce its Inclusionary Zoning and Livable Wage ordinances and to participate in activities of the CASH Coalition, which include free help with tax preparation and access to the Earned Income Tax Credit and free credit scores and credit counseling.

Public Housing

91.220(h) Public housing. Actions it plans to take during the next year to address the needs of public housing and actions to encourage public housing residents to become more involved in management and participate in homeownership. If the public housing agency is designated as “troubled” by HUD under part 902 of this title, the jurisdiction must describe the manner in which it will provide financial or other assistance to improve its operations and remove the “troubled” designation.

The Burlington Housing Authority (BHA) is a designated “High Performer” and does not require financial assistance from the city of Burlington.

BHA supports an affiliate nonprofit organization, Burlington Supportive Housing Initiatives, Inc. (BSHI), which has 501(c)(3) status. The purpose of this nonprofit is to develop affordable

supportive housing initiatives and to expand the resident service programs of the BHA. CEDO's Assistant Director for Housing has been appointed as the city's representative on the founding BSHI Board and presently serves as the board president. The city will work with BSHI to increase funding for resident service programs for BHA program participants, including the Family Self-Sufficiency Program, youth mentoring, homeownership, independent living and service-enriched housing. The city also encourages BHA to fully utilize its ability to project-base Section 8 vouchers in support of new affordable housing development.

BHA operates a very successful Section 8 Housing Choice Voucher Homeownership Option Program. Public Housing residents are eligible and are encouraged to participate in this program. Three scattered site public housing units have been converted to homeownership. BHA's Section 8 Homeownership Option Program has been in operation since 1999 with over 80 households successfully transitioning from renting to homeownership. BHA intends to increase homeownership by at least 12 additional households during this fiscal year. The city supports the implementation and expansion of BHA's Section 8 Homeownership Option Program.

BHA has not formed a resident management corporation for any of its projects, nor does BHA plan to do so in the near future. This form of direct resident management of public housing units is far less practical in small projects like those owned by BHA than in large projects like those that are found in major metropolitan areas. Practicality aside, no interest has been expressed by the residents of BHA housing in playing such a direct role in the management of their housing.

BHA has attempted to encourage public housing residents to become more involved in managing their housing indirectly, however, and these activities will continue, including:

- The BHA board will continue to rotate its monthly meetings among BHA projects so that every resident can conveniently attend a BHA board meeting (if they so choose).
- BHA has formed a Resident Advisory Board (RAB) with representatives from all its public housing developments and from the Section 8 program. The RAB meets periodically to provide input on BHA's Plans and Policies.
- BHA will provide continuing financial and staff support for all active resident associations in its public housing developments.
- BHA will provide matching funds for projects carried out by these resident associations.
- One BHA program participant serves on the BHA Board of Commissioners.

Homeless and Other Special Needs Activities

91.220(i) Homeless and other special needs activities. Activities it plans to undertake during the next year to address emergency shelter and transitional housing needs of homeless individuals and families (including subpopulations), to prevent low-income individuals and families with children (especially those with incomes below 30 percent of median) from becoming homeless, to help homeless persons make the transition to permanent housing and independent living, specific action steps to end chronic homelessness, and to address the special needs of persons who are not homeless identified in accordance with Sec. 91.215(e).

The Summary of Annual Objectives and Table 3C identify activities that will address emergency shelter, transitional housing, homeless prevention, housing placement, supportive housing and

independent living. The city will continue to participate in the Chittenden County Continuum of Care, to support its applications for HUD, Veterans Administration and SAMHSA funding to address both chronic and non-chronic homelessness, and to provide HOME funding for new transitional housing in Burlington.

Fostering and Maintaining Affordable Housing

91.220(j) Barriers to affordable housing. Actions it plans to take during the next year to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing. Such policies, procedures and processes include, but are not limited to, land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment.

91.220 (k) Other actions. Actions it plans to take during the next year to . . . foster and maintain affordable housing.

During the next program year, the city will continue to implement its Inclusionary Zoning and Housing Preservation and Replacement ordinances; to provide CDBG and HOME funding to nonprofit housing developers to develop, renovate and preserve affordable housing; and to support the Burlington Housing Authority as the lead agency in facilitating the transfer of ownership of housing with expiring subsidies from the private sector to nonprofit ownership, thus assuring their perpetual use as affordable housing.

Burlington was recognized by HUD as a model for reducing regulatory barriers that drive up housing costs. There are, nonetheless, actions which could be taken to reduce further reduce barriers. The following were recommendations of both the Mayor's Affordable Housing Task Force in 2002 and the City Council Housing Super Committee in 2006:

- Adopt a flexible rehab sub-code that provides clear guidelines for each category of rehabilitation, increases the predictability for property owners and reduces the cost of rehabilitation. This was subsequently deemed to be infeasible and unnecessary.
- Provide annual training to the Development Review, Design Advisory and Conservation Boards to ensure that members of these review boards fully understand their roles, proper meeting protocols, the rights of all parties and to ensure impartial project review on the part of board members. This recommendation has not been implemented by the Planning & Zoning Department.
- Explore a pilot project for on the record development review hearings for downtown zoning districts as determined by City Council. Despite support from the City Council, this concept has not yet been implemented.

Subprime Lending and Foreclosures

Subprime lending and foreclosures have, fortunately, been less of an issue in Burlington than in other communities across the country. The city's 2008 Consolidated Plan analyzed data from the Home Mortgage Disclosure Act (HMDA) data, Federal Financial Institutions Examination Council, provided by DataPlace™, <http://www.dataplace.org>, December 7, 2007. That data

(available through 2004) showed that overall, there are not many subprime loans in the city. There was a sharp spike in subprime lending in Burlington in 2004 and based on national trends, it is reasonable to assume that this upward trend continued through 2007. (There was also a spike in refinancing in 2000 and 2001, when interest rates were very low.) However, even in the 2004 spike, there were only 42 subprime conventional home purchase loans and 70 subprime conventional refinancing loans in the city.

Foreclosure and delinquency rates are lower in Vermont than nationally, although the number of foreclosure filings is rising. In 2004, 14 of 119 Chittenden County foreclosure filings involved residential properties in Burlington. In 2007, 28 of 182 Chittenden County foreclosure filings involved Burlington residential properties. In 2008, 40 of 262 Chittenden County foreclosure filings involved Burlington residential properties. Of those 40, four were repeat filings. The properties were scattered throughout the city, showing no concentration in any one neighborhood. There were nine foreclosure filings on Burlington residential properties through the first quarter of 2009, counting repeat filings.

Median home sales prices in the city rose from 2006 (\$250,000) to 2007 (\$256,000), and again through 2008 (\$283,750). Abandonment is not an issue in Burlington; the number of vacant buildings is currently estimated at less than six.

There are two HUD-approved housing counseling agencies in Burlington (the HomeOwnership Center run by the Champlain Housing Trust and Opportunities Credit Union) that provide both pre- and post-purchase counseling, including foreclosure prevention assistance. The Vermont Mortgage Assistance Hotline is also available. The city will continue to monitor foreclosures. However, at this point, neither the initiation of CDBG-funded foreclosure prevention efforts nor changes to funded homebuyer programs appear to be warranted.

Lead Paint

<i>91.220 (k) Other actions. Actions it plans to take during the next year to . . . evaluate and reduce lead-based paint hazards.</i>

The city of Burlington has received a \$2.8 million Lead-Based Paint Hazard Control grant from the Department of Housing and Urban Development. These funds are administered through the Community and Economic Development Office by the Burlington Lead Program to reduce lead-based paint hazards in eligible housing units to eliminate childhood lead poisoning. Through October 2010, the Burlington Lead Program plans to evaluate 240 units for lead-based paint hazards, reduce lead-based paint hazards in 180 housing units, and train over 300 individuals in lead-safe work practices, as well as providing outreach and education to the community.

Housing projects funded with local and federal funds are required to comply with state and federal lead laws. In addition, the city ensures that HOME and CDBG funded housing projects comply with the Lead Safe Housing Rule (LSHR) regulations at Title 24 Part 35 of the Code of Federal Regulations. Given that the additional cost of addressing lead hazards can make some

rental, duplex acquisition, and homeowner rehab projects infeasible, the city grants a portion of the cost to comply with the LSHR using Burlington Lead Program, CDBG, or HOME funds. Further, the Burlington Lead Program provides technical assistance to city staff for projects which trigger the LSHR.

HOME Program Requirements

91.220(k)(2)(i) For HOME funds, a participating jurisdiction shall describe other forms of investment that are not described in Sec. 92.205(b).

All HOME funds are invested in a manner consistent with 24 CFR 92.205(b)(1). Specifically, HOME funds are invested in interest-bearing and non-interest-bearing amortizing loans and in deferred loans and grants.

91.220(k)(2)(ii) If the participating jurisdiction intends to use HOME funds for homebuyers, it must state the guidelines for resale or recapture, as required in Sec. 92.254.

91.220(k)(2)(iii) If the participating jurisdiction intends to use HOME funds to refinance existing debt secured by multifamily housing that is being rehabilitated with HOME funds, it must state its refinancing guidelines required under 24 CFR 92.206(b). The guidelines shall describe the conditions under which the participating jurisdictions will refinance existing debt. At minimum, the guidelines must:

- (A) Demonstrate that rehabilitation is the primary eligible activity and ensure that this requirement is met by establishing a minimum level of rehabilitation per unit or a required ratio between rehabilitation and refinancing.*
- (B) Require a review of management practices to demonstrate that disinvestment in the property has not occurred; that the long-term needs of the project can be met; and that the feasibility of serving the targeted population over an extended affordability period can be demonstrated.*
- (C) State whether the new investment is being made to maintain current affordable units, create additional affordable units, or both.*
- (D) Specify the required period of affordability, whether it is the minimum 15 years or longer.*
- (E) Specify whether the investment of HOME funds may be jurisdiction-wide or limited to a specific geographic area, such as a neighborhood identified in a neighborhood revitalization strategy under 24 CFR 91.215(g) or a federally designated Empowerment Zone or Enterprise Community.*
- (F) State that HOME funds cannot be used to refinance multifamily loans made or insured by any federal program, including CDBG.*

For its Owner-Occupied Duplex Program, the City of Burlington provides no interest, deferred payment loans for eligible homebuyers to assist with down payment and closing costs. This program uses “recapture” when HOME funds are used for these projects. These loans are secured by subordinate mortgages. When properties assisted with HOME funds for this purpose are sold or transferred, the full amount of the loan plus any accrued interest is recaptured. The HOME Program uses these funds according to the HUD rules governing HOME program income. When a property owner assisted with HOME funds for this purpose refinances their

principal mortgage, the city will consider executing a subordination agreement upon receiving a written request with sufficient documentation on current fair market value and proposed refinancing amount. When considering such requests to subordinate its HOME mortgage, the city requires that the loan-to-value ratio be no greater than 100%.

For homebuyer projects which are developed by nonprofits and which have perpetual affordability, the City uses “resale” when HOME funds are used.

Multi-family projects developed by locally based housing organizations that receive HOME funds for rehabilitation may utilize HOME funds to refinance existing debt, consistent with 24 CFR 92.206(b)(2), if they meet the following guidelines:

- Refinancing is necessary to permit or to continue affordability under 24 CFR 92.252;
- Rehabilitation is the primary eligible activity. A minimum of \$7,500 of rehabilitation per unit is required;
- The grantee must demonstrate management capacity and practices that ensure that the long term needs of the project can be met and the targeted population can be served over an extended affordability period;
- The grantee must demonstrate that the new investment is being made to maintain current affordable units, to create greater affordability in current affordable units, or to create additional affordable units;
- Refinancing will be limited to projects that have previously received an investment of public funds;
- The minimum HOME affordability period shall be 15 years and all HOME assisted projects developed by locally based housing organizations are required to be perpetually affordable;
- HOME funds may be used for refinancing anywhere in the city of Burlington;
- HOME funds cannot be used to refinance multi-family loans made or insured by any Federal program, including CDBG.

The Champlain Housing Trust is the only certified Community Housing Development Organization (CHDO) in Burlington. The city expects to commit the statutory 15% CHDO set-aside to the Champlain Housing Trust for the project located at 88 King Street over the course of several program years.

Fair Housing

The city is undertaking a substantial revision of its Analysis of Impediments to Fair Housing Choice this year, with the assistance of the Fair Housing Project of the Champlain Valley Office of Economic Opportunity (CVOEO) and the Vermont Human Rights Commission. The city will continue to participate in quarterly meetings of the CVOEO Fair Housing Working Group.

Affirmative Marketing

It is the policy of the city of Burlington HOME Program to provide information and otherwise attract eligible persons in the housing market area to available housing constructed

or rehabilitated under the HOME Program without regard to race, color, national origin, sex, religion, sexual orientation, familial status, receipt of public assistance or disability.

The city of Burlington HOME Program will incorporate the Equal Housing Opportunity logo in its letterhead, press releases and advertisements.

Grantees receiving HOME funds will be required to contact one or more of the following agencies before filling vacancies during the HOME affordability period as stated in the HOME Program Loan/Grant agreement: local or State Housing Authority, Community Action agencies, area Mental Health and Mental Retardation agencies, area Office on Aging agency, area homeless shelters, the Department of Social Welfare, Committee on Temporary Shelter, Vermont Center for Independent Living or any state-wide handicapped accessibility clearing house, area AIDS service organizations, medical centers, schools, municipalities and any other social service agencies.

Any advertisement of vacant rental or ownership units during the HOME affordability period must include the equal housing opportunity logo or statement. Advertising media may include newspapers, radio, television, brochures, leaflets, or simply a sign in a window.

Housing borrowers, grantees or property management agents must display the fair housing poster in areas that are accessible to the public. Property owners or their management agents must maintain a file containing a record of all marketing efforts (e.g., copies of newspaper ads, copies of letters).

The city's HOME Program will monitor compliance as part of its ongoing monitoring process. Where noncompliance is discovered, the HOME Program will provide technical assistance to secure voluntary compliance. If this proves unsuccessful, the HOME Program will refer aggrieved parties to appropriate entities to seek redress.
