Re: Burlington Town Center - Section 8.1.14 Attended Parking Commitment

To Whom It May Concern:

I am writing as applicant for the 75 Cherry Street, Burlington Town Center redevelopment project to address Zoning Ordinance Section 8.1.14(a) Stacked and Tandem Parking Restrictions, and provide the written guarantee required therein.

As expressed in the materials we provided in the application process, the project's proposed parking structure will use stacked parking to maximize parking capacity. As required by the above-referenced Section, the project will "ensure that a parking attendant will always be present when the lot is in operation." Please accept this letter as the project's filed written guarantee of compliance.
